23. Source Reference: <input type="checkbox"/> NCR (attach) <input checked="" type="checkbox"/> Action Item <input type="checkbox"/> Tech Ref. <input type="checkbox"/> GSFC <input type="checkbox"/> Other: Update VDB to include new test cases for Drop 5A and to map Drop 5A criteria to these test cases.						
24. Description of Change: (use additional Sheets if necessary) - New test cases have been identified and existing test cases modified to verify feature group criteria for Drop 5A. -- The new test cases are currently not in the VDB; this CCR adds some of them to the VDB. -- Modified tests cases should be identified separately from existing test cases in the VDB; this CCR includes some of them in the VDB. - Criteria for Drop 5A has not yet been mapped to test cases; this CCR includes some of this mapping.						
25. Proposed Solution: (use additional sheets if necessary) - Add the test cases specified in the attached "Test Case Additions (Drop 5A-Part 1)" table to the VDB. - Include the mapping specified in the attached "Criteria to Test Case Mapping (Drop 5A-Part 1)" table in the VDB. - Another CCR will be prepared to identify additional Drop 5A test cases and to map additional criteria to test cases.						
26. Alternate Solution: (use additional sheets if necessary) N/A						
27. Consequences if Change(s) are not approved: (use additional sheets if necessary) - New Drop 5A test cases would not be included in the VDB. - VDB would indicate orphan criteria for Drop 5A, i.e., criteria without any test case mappings. - Failure to make these changes will result in a totally inaccurate portrayal of Drop 5A criteria status.
